Program Features

At EHAM, our goal is to equip our students with skills required to excel in software product companies, rather than just limiting them to becoming application developers using no-code or low-code tool sets.

To achieve this, we have partnered with **Holberton Inc**, Silicon Valley to offer world class, industry vetted curriculum.

This rigorous 5.5-month bootcamp split into 21-weeks include 47 hands-on projects + 958 hours of training + 3 weeks of dedicated Interview Prep.

- Learn in-demand tech skills

- Immersive & practical learning through real life projects

- Outcome driven pedagogy lik mock interviews, Github, soft skills training

- Exclusive mentorship from industry experts

- Career counselling

- 100% job placement guarantee

www.eham.tech

Key Highlights

- Learn in **personalized** smaller cohorts of 20-30 students.
- Engage in **weekly projects** and tasks from Monday-Friday.
- Mentor based learning from industry expert.
- Focus on **hands-on learning** through self and **peer-to-peer learning**.
- Gain expertise in Shell, Python, SQL, JavaScript, Node JS, React.
- Attend dedicated soft skills **workshops** to become job-ready
- Above all, Become a **FULL STACK DEVELOPER** every Software Product company wants!

OUR ALUMNI STORIES

Signing up for EHAM's Full Stack Development Bootcamp was one of the best decisions I have ever made. The curriculum is aptly designed keeping the industry standards and requirements in mind, mentors are supportive, and the dedication shown by the entire team in ensuring that the learning process is smooth and fruitful is amazing. I would 100% recommend signing up

- Shreya Vodnala

Wonderful course. The mentors are very supportive and there was a real focus on learning by self and also with peers. After the 5-month bootcamp, I feel more confident not only as a developer but as a leader and team member. I would highly recommend this course

- Mahesh

When I came across Full Stack Development bootcamp, I looked forward to upskill my learning in the tech domain and learn from industry experts. I have to say, the curriculum has been updated with the needs of the industry today and I received a lot of support in the form of doubt solving and mentorship sessions. My overall experience has been great and I have enjoyed learning with EHAM

- Anitha Vankalayapati
