

## **Sector: Q-commerce (Supply Chain Function)**

### **Job Title: Interns**

#### **Company Overview:**

Zepto is a fast-growing startup revolutionizing the grocery delivery industry by making it possible to get groceries delivered in just 10 minutes. With a robust network of delivery hubs across the country, we are scaling up rapidly. We are backed by prestigious investors like Y Combinator, Nexus Venture Partners, and more. Our team comprises Senior Executives from Uber, Flipkart, Swiggy, Dream11, and esteemed institutions like Stanford, INSEAD, IIM, and IIT.

#### **Position Overview:**

As a Supply Chain Management Intern specializing in process optimization, you will play a vital role in enhancing the efficiency and effectiveness of our supply chain operations. Working closely with experienced supply chain professionals, you will gain valuable hands-on experience in analyzing and improving various processes within the supply chain to drive cost savings, enhance customer satisfaction, and increase overall operational performance. This internship offers a unique opportunity to learn and apply practical skills that contribute to the success of our organization.

#### **Key Responsibilities:**

1. **Process Analysis:** Collaborate with the supply chain team to understand and map the current processes involved in procurement, inventory management, transportation, and distribution. Identify bottlenecks, inefficiencies, and areas for improvement.
2. **Data Collection and Analysis:** Gather relevant data on supply chain processes, inventory levels, transportation costs, lead times, and other relevant metrics. Utilize analytical tools to analyze data and draw meaningful insights.
3. **Process Optimization:** Propose and implement process improvements to streamline supply chain operations. These optimizations may include adopting new technologies, process reengineering, or lean principles.
4. **Collaboration:** Work closely with cross-functional teams, including procurement, logistics, warehousing, and production, to implement process changes and ensure alignment with overall business objectives.
5. **Continuous Improvement:** Support the development of a culture of continuous improvement within the supply chain team. Encourage the sharing of best practices and contribute to ongoing improvement initiatives.

**Requirement:**

1. Currently enrolled in a bachelor's or master's degree program in Supply Chain Management, Operations Management, Industrial Engineering, or a related field.
2. Strong analytical skills with the ability to interpret data and draw conclusions.
3. Proficiency in Microsoft Excel, data analysis tools, or statistical software is a plus.
4. Excellent communication and interpersonal skills, with the ability to collaborate effectively.
5. Familiarity with supply chain concepts and principles is advantageous.

**Duration and Compensation:**

This is a 90 days internship position, with the possibility of extension based on performance and business needs. Compensation and benefits will be commensurate with industry standards and the candidate's qualifications.

Join our dynamic supply chain team and help us optimize our processes for a more efficient and agile supply chain. Together, we will drive success and make a positive impact on our organization's performance. Apply now and be part of our journey toward excellence in supply chain management!

**Open Position:**

1. Mumbai
2. Bangalore
3. Delhi
